2010 Maximum Contribution Worksheet - Part 2

457(b) Final Three Year Catch-up Calculation

Fringe Benefits Consortium

Instructions	The 2010 Maximum Contribution Worksheet - Part 2 is to be used to determine if you are eligible for the 457(b) Final Three Year Catch-up contribution. This catch up option is only available to you if you are in your final 3 years of employment prior to attaining your Normal Retirement Age. Upon completion, submit the <u>original</u> form to your district payroll office. Please also fax a copy of this form to (800) 597-8206.																																																																							
Determine Year of Normal Retirement Age	<ol style="list-style-type: none"> Are you eligible or will you become eligible for retirement benefits under PERS, STRS, or another retirement system before or during 2013? If YES, go to question 2. If NO, you are not eligible for the final Three Year Catch-up and you are finished with Part 2 of the Maximum Contribution Worksheet. In what calendar year did you become or will you become eligible for retirement benefits under PERS, STRS, or another retirement system? In what calendar year will you terminate employment with your Riverside County School District? You may designate any year between answer #2 and answer #3 as the year in which you will reach your Normal Retirement Age. What year do you designate as the year in which you will reach Normal Retirement Age? Please note: your designation will only be used for purposes of calculating your 457(b) Final Three Year Catch-up. It will not determine the year in which you may actually retire. However, once you have utilized the Final Three Year Catch-up limitation under Section 4.2 of the Plan Document or under a comparable provision of another eligible deferred compensation plan, your Normal Retirement Age may not thereafter be changed for the purpose of funding your Final Three Year Catch-up contribution. What are the three years prior to the year you designated on line 4? Enter the years on lines 5a, 5b, and 5c. These are the years in which you may utilize the 457(b) Final Three Year Catch-up contribution. If boxes 5a, 5b, or 5c do not include the current year, you cannot utilize the catch-up in the current year and must enter \$0 in line 3 of Part 1 of this worksheet (first page). 	<ol style="list-style-type: none"> YES / NO <input type="text"/> <input type="text"/> <input type="text"/> 5a. <input type="text"/> 5b. <input type="text"/> 5c. <input type="text"/> 																																																																						
Determine Total Available Catch-up	<ol style="list-style-type: none"> Complete the table for each year you were eligible to participate in a 457(b) plan. First, enter your gross compensation. Then multiply by the figure shown to determine your Maximum Deferral. Enter the lesser of your Maximum Deferral and the Contribution Limit.
